Enthusiastic Developer with 10+ years of broad experience in Javascript areas, with willingness to design scalable micro-services solutions.

My Work Experience

BECOMS

March 2022 to present Full-stack Developer

I'm working on projects for small and medium businesses, in a wide variety of fields:

- Apps for professionals working in the field: React, Typescript, NodeJS, MongoDB
- IoT platform to process vehicle data: NodeJS, Python, MongoDB
- OSS & cloud software integration: API / Webhook, NodeJS, Auth0, AWS S3, Gitlab CI, Azure Containers

BACARDI

Jan 2021 to Mar 2022 Solutions Architect - Full-stack Developer

Working as Bacardi Tech Lead, I've had several achievements on my own:

- MixlabCocktails B2C website and mobile app: design app architecture, continuous integration and automated testing
- Using NodeJS Azure Functions, I designed and developed data flow from Cloud solutions (Gigya IAM, Algolia Search, Youtube and Vimeo videos)
- Using Next.js and GraphQL, I developed POC to compare headless CMS & e-commerce platforms : Contentful, Contentstack, Strapi, Amplience, VTEX
- Management of 100% english-speaking teams

2018-2020 Full-stack developer - Minister of Research

Help Scientific Researcher to collaborate and manage their teams in a centralized application called CAPLAB.

My achievements: automate 80% of manual tests, unify developers around the devops approach, and spread the peer review practices

Angular, Springboot, Postgres, Gitlab CI and Docker-based platform. Node.js and Python scripts. Tests: Karma, Protractor, Mockito

2016-2017 Software Architect - Mobile developer - Michelin

As a small dev team, we built a **mobile app** that turn a standard mobile phone into a multipurpose data collecting tool.

Michelin experts are now using it at every Moto GP and Le Mans.

We were with them in the races to fix bugs and improve UX, stressful but so interesting experience!

Stack: Ionic, Redux, Groovy backend

Technical architecture on B2B applications integration with Salesforce IAM.

Recruitment, software craftsmanship and students mentor.

2013-2015 Java Developer - Software Architect - Michelin

2010-2013 Java Lead Developer - Minister of Agriculture

2009-2010 Functional Analyst - Michelin

2008-2009 Devops - Michelin

Education & Skills

ISIMA - Master School **Fluent in english**, thanks to several years of work with remote coworkers of IT

Management: Architecture (integration, security, **Fluent in english**, thanks to several years of data, infra), Agile, Team Leader work with remote coworkers

My Projects

Javascript / React Teacher

@ISIMA IT Engineering School
